

Pneumatic Vibration Isolation Workstation

1VIS10W

1VIS10W-09-17-77-CA

On request we produce workstations with Honeycomb Table Tops of any dimensions.

Model	B, mm	L, mm	H, mm
1VIS10W-06-09-77	600	900	770
1VIS10W-075-09-77	750	900	770
1VIS10W-075-12-77	750	1200	770
1VIS10W-09-14-77	900	1400	770

Pneumatic Vibration Isolation Workstation 1VIS10W consists of **1VIS10**, a **Honeycomb Breadboard**, and a protection **Armrest**.

As you lean on the **Armrest**, it guards the honeycomb table from impacts of your body. This allows you to work at the table like at a conventional table, using microscope and other equipment.

The suggested **elevation** of table's surface is **770 mm**. We produce four standard models of **1VIS10W**.

Laser shelves are optional breadboards. They save space when installing lasers and other equipment beneath honeycomb table tops. The shelf stays mechanically coupled to the table top.

Laser shelves sizes are on page 1-23.

1VIS10 system can be optionally equipped with **Castors**, which are made of high-quality nylon, high abrasion resistant, smooth running performance on even floors, shock and impact-resistant, corrosion-resistant.

Armrest guards isolates the honeycomb table from impacts of your body. This allows you to work at the table like at a conventional table, using a microscope or other equipment. Optionally you may order workstation with two **Armrests** on opposite sides.

ORDERING EXAMPLE

1VIS10W-09-14-77-CA

1VIS10W workstation sized **900×1400×770 mm** (B×L×H);
CA – casters.

Low noise air compressors have been developed for those users where low noise and relatively small flow of air is required. With **sound levels** from **just 40 dB(A)** and almost no vibration when running, the compressors can be located in the work area without causing any noise intrusion. The compressors have a **8 bar** maximum working pressure. Designed to require minimal maintenance and to ensure years of trouble free use, our comprehensive range meets the needs of many applications including; air-brushing, exhibition stands, glue dispensing, pneumatic controls, stapling – anywhere where compressed air is needed silently!

Air compressor is required for operation
